

March 4th: Owl Prowl

Bundle up and join us for a moonlight snowshoe nature walk as we search for our resident owls and learn about these amazing nocturnal predators. Our prowling will begin at the CRC office in the Seeley Lake Bison and Bear Shopping Center before venturing outdoors. We will learn to identify owls by sight and sound, their habitats, and behaviors. Following the indoor portion, participants will drive to a nearby location to call and listen for Great Grey, Great Horned, Barred, and Saw-whet owls. We will snowshoe in the forest as day turns into night and the moon rises higher. Expect to return to the CRC office no later than 9 p.m. depending on weather and interest.

4 March 2023
5 pm - 9 pm

Hike Details

Dress Warmly!

Participants will be standing in the cold for at least 10 minutes at a time. Children under 12 are not recommended.

"Quiet" clothing is preferable to greaten our chances of sightings.

Bring snowshoes, headlamps, flashlights, extra layers, & water. Night time snowshoeing on an easy trail with uneven terrain.

No Dogs Permitted!

Keep in mind that these are wild owls and there are no guarantees. Wind, cloud cover, precipitation, and more will likely affect the owls' response.
